

Maidenhead

5 Oct. 1866

My dear Sir

Neither you nor our
friend Mr Laing gave me your
name & money for my Re-
print of "England's Helicon" 1600.
My notion was that you &
he were content with the re-
print of the edit of 1614 form-
ing Vol III of the British Bi-
liographer. If not content
I can, and can only just, sup-
ply you with my Reprint. I
have only 2 copies now left.
It is in two Parts of about

220 pages each, and the cost of each has been 10/- therefore you must forward to me a P. O. Order for 20/- and I will send you the book.

On second thoughts I will first send you the books, and hope that you will not delay payment for them, as I keep no acct books of any kind, and am obliged to trust to my memory.

I am glad that you like the Jordan's "Royal Arbor": it more than exhausts the money in my hands, by 1/- for each copy; but in spite of that I shall send round N° 24 of the green series as a present, & at the end

of it will be found title-
pages and Contents for the
3 vols into which I divide
the 24 Nos. Nobody will, I
feel confident, have a right
to complain that their mo-
ney (£3 in the whole) has
been mis-spent in eight such
reprints for each £1.

As for "Davison", you
are wrong if you do not
give me your name & £1,
the differences in the editions
are so essential. I have at
this moment 48 out of 50
names on my list for it; so
that now is your time or
never.

Yours very sincerely
J. Payne Collier
James Maidment Esq.

of the world in general to the
large and constant for the
most interesting I think
to 24 h. history with
the exception; have a list
of names that they have
